

Acceptable forms of

Proof of

Identification

A-Z guidebook by
country

Acceptable Forms of Identification

The following is a guidebook outlining the forms of identification accepted for KYC purposes. When reviewing a piece of identification for KYC purposes please ensure the following:

- ID document is copied in full
- ID document is clearly legible
- ID document is a Certified True Copy
- ID document is still within its validity period

In the case of a National Identification Card or Driving License:

- Both front and back of ID documents are copied

Passports are the preferred form of identification. If a passport is not used as the Proof of Identification the applicant must attest to the fact that they do not own a passport with the ADSS Passport Attestation Form in writing or via email.

National Identification Card is the secondary form of acceptable identification and should only be reviewed upon receiving the above mentioned Passport Attestation Form.

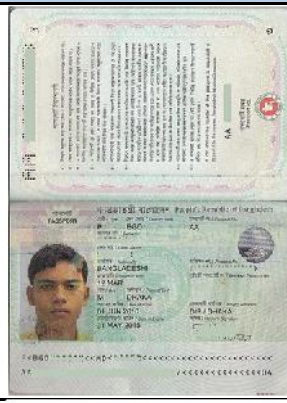

Driving Licenses will only be accepted in cases where both a Passport Attestation Form is received and the country of citizenship and country of residence do not have mandatory National Identification Cards in circulation.

Unavailable - Information not available to compliance without detailed research				
Mandatory / Optional - are individuals required to obtain the piece of ID
